EQUIBAG Multi-Purpose-Bag
The EQUIBAG with a volume of 50 liters provides enough space for your personal protective equipment (PPE) or similar equipment. Boots can be stored in the Vario side-pocket and the contents of the main compartment stay clean at all times. The detachable reflective stripe provides additional visibility. Inside of the frontbag a small organizer is integrated. At the top you will find an elastic cord for fixing e.g. a jacket.

size: 42 x 41 x 30 cm
volume: 50 l
weight: 1,1 kg
item-no. 4702

SHIFTBAG Backpack
The SHIFTBAG with its volume of 50 liters and an ergonomic backpack-carrying-system comfortably accommodates your personal gear or spare clothes and boots – everything hygienically separated.

Your heavy boots can be stowed in two separate side compartments close to the body. Metal eyelets provide for ventilation of both boot compartments. Two additional compartments of about the same size (about 13 liters volume) can be used to store used and fresh clothing separately. A 50 mm wide safety reflective stripe on the front provides for additional visibility.

size: 54 x 38 x 34 cm
volume: 50 l
weight: 1,4 kg
item-no.4706

RAGBAG Garment Bag
Everything fits in here! Large main compartment with net pockets for your complete protective garment. Boots can be stowed in a hygienically separated boot-compartment. Large zipper pocket to carry a DIN A4 folder and an additional zipper pocket on the front. With its detachable, padded shoulder strap and backpack-carrying-system the RAGBAG can be easily transported.

size: 70 x 36 x 43 cm
volume: 85 l
weight: 2,2 kg
item-no. 4705

Holster & Bags
for your
competent help

RING Mobile Phone Holster

Adjustable pouch for the safe transport of your mobile phone. Your device is immediately at hand: you have to open just one buckle. The size of the devices compartment can be adjusted by velcros. The RING pouch can be applied horizontally at a belt with max. 50mm width or at a strap of a rucksacks shoulderstrap.

Size: 13 x 7 x 4 cm, suitable for devices with circumference up to 16 cm and length up to 16 cm
Material: 1200D Polyester
item-no. 2858

GLOVE Holster

Small pouch with two compartments for two pairs of protective gloves. A belt with max. 50mm width can be applied horizontally.

size: 11 x 9 x 2 cm
material: 1200D Polyester
item-no. 2859

SNAP Rescue Knife

Designed for official use, this rescue knife has a 90mm long stainless steel blade with a 30mm long, extreme sharp serration. Fast, one-hand release-system allows opening with just one thumb or finger. Self locking liner-lock system. Including an extreme efficient glass smasher and a double-blade belt cutter. Immediate access to the knife thanks to a belt-clip made from spring steel.

Total length: 22,5 cm
Packing size: 13,5 cm
Length of blade: 90 mm incl. 30mm serration
Thickness of blade: 2,8 mm
Weight: 165 g
color: black/yellow
item-no. 9892

CARDIO Stethoscope-Holster

Special paramedic holster to securely hold your stethoscope. Scissors can be stowed in an additional compartment. The attached front pocket with lid can be used to store small items. Integrated GLOVE-FIX system allows for immediate access to protective gloves. The holster can be attached horizontally or vertically to any belt. The padded back allows for comfortable carrying and protects the stethoscope on the interior as well.

size: 22 x 13 x 4 cm
item-no. 2856

RADIO Radio-Holster

Special holster to safely transport your radio receiver. The radio compartment can be adjusted invariably in both width and depth according to the size of your radio. A separate compartment between radio compartment and front pocket can securely hold scissors or similar items. Two small side pockets provide space to carry a penlight and pens. The holster can be attached to all belts with the wide Vario loop strap. Optionally available hook-and-loop stripes can be used to attach it to a shoulder strap or harness.

size: 17 x 10 x 4 cm
item-no. 2857

DROP Super-Size-Holster

This multifunctional holster with a volume of 1 liter offers a variety of uses: Emergency services: personal patient medication and documentation, labeling material for mass casualty incidents, etc. Fire services: tools for technical assistance operations or operations in heights, etc. The empty holster is carried flat and slim. When needed, the holster can be expanded to its full size by opening the cover flap. – even with one hand.

size: 12 x 11 x 6 cm (unfilled)
22 x Ø 15 cm (unfolded)
volume: ca. 1 liter
item-no. 2855

QUICK Paramedic Belt

The special design, consisting of lower and upper belt, allows for detachment of the holster during standby time and immediate attachment in case of an alarm. The 50 mm wide upper belt is attached to the lower belt with the large hook-and-loop fastener and additionally secured with an easy to operate clip buckle. Furthermore, a total of four fastening and one plastic eyelet for the attachment of a key ring or similar item are included in delivery. The fastening loops secure firm hold of all holsters attached to the belt. The clever zipper pocket in the lower belt can be used to carry money or other valuables protected against loss or theft. Additional loop with the unique GLOVE-FIX system for the attachment of protective gloves. The gloves only need to be folded and fixated with the hook-and-loop fastener.

size: S (70-90cm), M (85-105cm), L (100-120cm), XL (115-135cm)
item-no. 2850

ULTRA Scissors-Holster

Basic holster for your fundamental equipment. Scissors and penlight can be safely carried. A 45 mm wide loop allows for the attachment of either protective gloves or radio receiver. In addition, two elastic loops on the side provide space for a torch, timber wedges or similar items.

size: 15,5 x 5 x 1,5 cm
item-no. 2851

MEDIC Paramedic-Holster

This large and comfortable holster provides you with the extensive equipment on duty. Protective gloves are immediately at hand thanks to the GLOVE-FIX system, yet safely stored. A transparent pocket provides clear sight on the radio display. Just next to it an additional pocket can be used to safely store smart phones or similar items. Five more compartments in three layers provide space for a variety of medical instruments and two exterior elastic loops. The Vario double-loop straps allow for the attachment to any belt – especially the QUICK Paramedic Belt.

size: 19 x 14,5 x 5 cm
item-no. 2854

PARA Paramedic-Holster

This convincing holster provides you with the extended equipment on duty. Protective gloves are immediately at hand yet safely stored (GLOVE-FIX System). The exterior pocket provides space for e.g. a radio receiver. A multi-tool compartment with hook-and-loop fastener and three more compartments in two layers provide sufficient space for medical instruments. Two exterior elastic loops complete this well-designed holster. A belt can be applied horizontally or vertically through the carrying straps on the back. – ideal for the QUICK Paramedic Belt.

size: 19,5 x 14 x 2,5 cm
item-no. 2853

SAN Compact-Holster

For your basic equipment as a member of the emergency services. Immediate access to your protective gloves thanks to the GLOVE-FIX system. A multi-tool compartment with hook-and-loop fastener and three additional compartments in two layers provide sufficient space for medical instruments. A belt can be applied horizontally or vertically through the carrying straps on the padded back.

size: 17 x 11 x 2 cm
item-no. 2852

HYBRID Equipment Holster
It allows for safe transport and easy access – directly on the shoulder carrying strap of your respiratory protection device. Two elastic loops provide additional space for timber wedges or labeling markers.

CRASH & CARRY Training Dummy

The CRASH & CARRY training dummy is the perfect training tool for members of fire and emergency services. Anyone who already had to prepare practical training sessions, knows how hard it is to carry a training dummy on your own: it is extremely exhausting and sometimes almost impossible. Here the CRASH & CARRY training dummy plays its trump card. The integrated and stowable transporting system allows for easy carrying of the dummy as back pack.

The 170 cm large CRASH & CARRY training dummy can be filled individually by the user – up to a weight of max. 40 kg. Filled by customer with old clothes and stones. Hook-and-loop fasteners for the attachment of injury patterns can be found at the dummy's head, torso and extremities. Appropriate pictures are included in delivery (DVD-ROM). Optionally, the injury patterns can be delivered for immediate use – laminated with integrated hook-and-loop fastener.

CRASH & CARRY Training Dummy
empty weight: 2,0 kg (delivery without filling)
