Isothermal bag for diabetic's kit

Isothermal bag designed for the smallest of the house to carry all the essential items for diabetes' treatment.

Its structure, with two cases, makes it easier to store and locate the measuring instruments (glucometer, test strips, needles) as well as the insulin pens, which will be placed in the isothermal case.

Available in: EB14.010 Robots | EB14.011 Circus

Features

- The front part has a pocket designed to hold diabetic diagnosis material namely glucometer, needles, test strips, etc.
- It has a back pocket designed to hold both the cold gel and the insulin applicators. A correct temperature is guaranteed even in summer.
