Technology

AIR

VENTILATION: Maximum ventilation thanks to the ten air intakes. The air intakes and the internal outflow channels guarantee effective breathability.

CLIP

LAMP CLIPS: Helmet equipped with strong nylon external lamp carrying clips, made of high intensity resin and frontal antislid insert that are compatible with all headlamps with elastic bands on the market.

REFLECTIVE

REFLECTING STICKERS: Adhesive reflecting stickers for high visibility.

CHINSTRAP
EN 14052

CHINSTRAP EN 14052: Four point chinstrap. The safety release system allows quick fastening and opening of the locking mechanism in conformity with EN 14052. Provided with lateral divider for adjusting the length of the straps.

RING TO HOOK

RING TO HOOK: Fitted with a special loop on the chinstrap which allows the helmet to be connected to the harness.

SANITIZED®

SANITIZED®: The Sanitized® treatment is an antibacterial treatment that acts as an internal deodorant counteracting the development of unpleasant odors. Thanks to its hygienic function, it effectively prevents bacterial proliferation by increasing freshness and comfort of the fabric in contact with skin.

2DRY

2DRY: This high-tech and maximum comfort fabric dries very quickly, encouraging the expansion and dispersion of moisture to the outside and leaving a pleasant feeling of freshness.

MICROMETRICAL ADJUSTMENT: The micrometric size regulation mechanism positioned at the rear of the helmet provides quick and precise adjustment, even when wearing gloves.

VISOR

VISOR ATTACHMENT: Provided with attachment for fitting visors.

EARMUFFS

EARMUFFS FITTING: Provided with bayonet socket adapter for earmuffs. Compatible with KASK earmuffs.

Performances

PROTECTION AGAINST TOP IMPACTS	 5 Kg from 2 m 100 J
PROTECTION AGAINST SIDE, FRONT AND REAR IMPACTS	 5 Kg from 1 m 50 J
PROTECTION AGAINST THE PENETRATION OF OBJECTS	 TOP: 1 Kg from 2,5 m 25 J LAT: 1 Kg from 2 m 20 J
CHIN STRAP RELEASE > 15 kg <25 kg	
RETENTION SYSTEM EFFECTIVENESS	

 Standard requirements

Additional Information

GUARANTEE

3 years starting from the purchasing date.

SHELF LIFE

10 years starting from the production date (production date is printed on a label contained on the inside of the helmet). Inspect the helmet regularly to check for any damage! Cuts, abrasions, deformation or changes in colour represent important elements for checking the helmet status.

CLEANING

Clean the helmet only with water, neutral pH soap and a soft, clean cloth. The inner lining should be washed by hand in cold water or in the washing machine (max 30°C - 85°F). Do not use chemical detergent or solvent.

STORAGE

When not in use the helmet should be stored away from direct sunlight or source of heat.

ADHESIVE APPLICATION

Do not apply adhesives, solvents, stickers or paint that do not comply with the manufacturer's specifications. Any alteration or intervention not provided for may impair its protective function.
