Small fold-out first-aid kit bag.

Small fold-out first-aid kit with a very versatile size that can also be used to easily organize and carry a small intubation kit. Made of a lightweight and high resistance fabric, this first aid kit bag is perfect both to keep everything tidy at home or to carry all the medical material on your trips.

Features

- Compact size and structured inner layout.
- Great capacity mesh pockets with a wide opening to easily access to its content.
- Different size elastic bands for the material.
- Fold-out flap with two zipper pockets.
- Double zipper and night&day reflective pullers.
- Large customization area in the front where you can print your logo.
