

Resusci Anne[®] Q CPR

The Resusci Anne[®] Q CPR manikin is designed to help trainees improve CPR competence through real-time feedback for immediate adjustments and summative feedback for post-event debriefing.

Measures CPR Performance

Realistic Anatomy

Ventilation System (BVM and MTM)

2015 AHA Guidelines Compliant

Multiple Chest Stiffnesses

Detects Correct Pad Placement

Resusci Anne® QCPR

Multiple Configurations for Team Training

In addition to providing high-quality CPR training, the Resusci Anne® QCPR manikin allows for those skills and others to be integrated into team training. The available add-on options and accessories make Resusci Anne QCPR more than just a high-quality CPR training manikin. The manikin can be upgraded to train teams on AED/defibrillator use, airway management, circulatory skills, IV drug administration, and rescue/trauma situations.

Configurations

Each can be purchased individually or Resusci Anne QCPR can be upgraded to any configuration. Each is available in torso or full-body.

- Resusci Anne QCPR
- Resusci Anne QCPR with Airway Head
- Resusci Anne QCPR AED
- Resusci Anne QCPR AED with Airway Head

Exclusive QCPR Technology

Laerdal's QCPR Technology enables Resusci Anne QCPR manikins and feedback devices to measure the quality of CPR, providing real-time and summative feedback on the five key factors of quality CPR: compression rate, depth, release, hands-off time, and ventilation rate and volume, as defined by the American Heart Association.

Advanced Feedback Device Options

SkillGuide™: a hand-held device that provides real-time feedback and single session debriefing.

SimPad® PLUS with SkillReporter™: a mobile, flexible and intuitive touch-screen solution for quality CPR feedback on up to six manikins at once.

Wireless SkillReporter™: a Windows software solution for quality CPR training on up to six manikins at once.

Accessories

Airway Head - LMA, supraglottic airways (LMA, LTA, Combitube and iGel)

AED Skin - senses pad placement. By incorporating ShockLink™, learners can use most leading brand defibrillators and/or AEDs within their team CPR training

Other Options - IV arm, limbs with wounds and simulated bleeding

Services

Laerdal offers comprehensive Educational Services to support your program, and Technical Services to meet your equipment servicing needs.
