Περιγραφή

ΤΕΕ-ΥΥ TALK Θήκη Ασυρμάτου

With this holster your digital radio receiver is quickly accessible and easily operated, especially when wearing a respirator. The TALK holster provides secure transport and easy access to your digital radio receiver; it can be attached to the shoulder strap of your respirator or your belt. Due to its open design, the holster can also carry a radio with a connected microphone-loudspeaker. The emergency button remains easily accessible at all times. The two elastic loops at the side of the holster can be used to carry timber wedges or markers.

- Material: 370G TEC Fire Retardant
- Size: 12,5 x 9 x 4 cm
